Professional Experience

Virtusa, *Software engineer intern*

01/2023 – 04/2023 | Chennai, India

- I have completed an internship at **Virtusa**, where I gained hands-on experience in modern web development technologies, including **React.js** and **Spring Boot**. During the internship, I actively contributed to learning and applying frontend and backend development concepts. As part of my learning, I independently developed a **Stopwatch application using React.js**, which enhanced my understanding of component-based architecture, state management, and real-time user interactions.
- Attained a score of over 85% in **Oracle's Java SE 8 Programmer** certification from Oracle Corporation, showcasing strong core Java skills.

Skills

Java, React.js, JavaScript, Spring boot, Node.js, Express.js, MongoDB, Tailwind CSS, MySQL, Postman (API Testing), REST APIs, HTML, CSS and Git.

Projects

E-Commerce website in MERN Stack

- An e-commerce website built using MERN Stack (MongoDB, Express.js, React.js, Node.js) for online businesses similar to Amazon.
- Key functionality like SMS notification from Mailtrap is included to deliver the instant messages.

Club Event Management System

- Spring, React JS & MySQL technologies are used to build the project for our college club to organize an event.
- Explored the dynamic world of web development and learned to design the API with well standards.
- Implemented the Rest API end points to fetch and post the details for our club events.

Education

B. E. Computer Science and Engineering,

06/2019 – 04/2023 | CGPA – 8.85
